Since 1978

Mercy Ships began our mission to provide hope and healing to those in need in 1978.

Each year we send hospital ships filled with volunteer professionals who selflessly provide life-changing surgeries to children and adults who otherwise would go without.

Together we are saving lives.

"Deras arbete sträcker sig längre än att erbjuda vård till de sjuka. De skapar en atmosfär av välbehövligt hopp där de arbetar. Jag gläds över att kunna stötta Mercy Ships."

Tony Blair, fd premiärminister i Storbritannien

"Jag vet att jag talar på uppdrag av många, många miljoner människor när jag säga tack så mycket till er alla för ert engagemang och er omsorg ..."

Desmond Tutu, Nobelpristagare

Jimmy Carter
Former President | U.S.A.

"It gives me great pleasure to express my support for this visionary enterprise of hospital ships bringing hope and healing to some of the world's most needy."

"Vi erbjuder vård till människor som har förlorat allt hopp. Vårt svar är direkt och beslutsamt och det är mycket effektivt."

John Barrow, Kapten Africa Mercy

"Jag har haft nöjet att höra om en ovanlig grupp människor från hela världen som visar en unik medkänsla i deras tjänst för mänskligheten. Dessa människor sätter en speciell standard. De betalar för att arbeta, i motsats till normen. Med stöd av andra reser de hemifrån för att hjälpa extremt fattiga människor i Afrika."

Mercy Ships – our Swedish Team in Gothenburg

A close-up photograph of a woman with light brown hair, smiling warmly. She is carrying a young child with dark skin and short hair on her back. The child is looking over their shoulder towards the camera with a gentle smile. The woman is wearing a blue shirt, and the child is wearing a teal-colored garment. The background is softly blurred, showing what appears to be an outdoor setting with some structures.

Safety

A large crowd of people, mostly of African descent, is standing in a long line on a paved area. They are dressed in various casual and traditional clothing. In the background, there is a tall, dark monument and some trees. The overall tone of the image is somber, with a dark overlay.

MERCY SHIPS

A large white and blue hospital ship, the Africa Mercy, is shown sailing on a dark blue ocean under a cloudy sky. The ship has multiple decks, antennas, and a prominent blue funnel. The name 'AFRICA MERCY' is visible on the side of the hull.

...because the need for safe, affordable and timely **surgery is the world's greatest medical challenge**

...because with hospital ships we can bring **high quality surgical care** to nations that invite us to help lighten the burden of surgical need

...because our hospital ships are **training platforms** for medical professionals and will leave behind sustainable development in medical care

...because the motivated volunteer crew can really **make a difference** by bringing hope and healing.
