

Sjöfartens Dag

MARITIME DAY

ABB Marine & Ports

ABB's role as a front-runner in sustainable transportation is to equip the marine industry with electric, digital and connected solutions that maximize the full potential of vessels and ultimately enable a safe, efficient and sustainable maritime industry. Modern ships are being built on the foundation of electricity, which expands their range of viable energy sources beyond traditional fuel to batteries and fuel cells.

Aboa Mare

Aboa Mare maritime academy incorporates maritime education provided by two educational establishments, Novia University of Applied Sciences and Axxell. In addition, Aboa Mare offers continuing education for both professional seafarers and leisure boaters. Our students and course participants can undertake practical exercises using our state-of-the-art simulators, designed to replicate actual ship bridges and engine rooms. We also use our maritime expertise and simulation know-how for providing high quality R&D services.

Accelleron

AEGIR-Marine

Alandia Försäkring

Alandia is an insurance company with focus on Marine, Cargo and Boat insurance. With 85 years of experience Alandia delivers swift and relevant service and marine insurance solutions that provide long-term security, reduce risk and resource utilisation. Headquartered on the Åland Islands and with offices in Helsinki and Stockholm Alandia employs approximately 120 professionals.

Alandica Shipping Academy

Alandica Shipping Academy är paraplyorganisationen för åländsk sjöfartsutbildning.

Alfa Laval Nordic

With over a hundred years of maritime service, Alfa Laval offers a wide range of maritime equipment for critical operations on board. We help ensure compliance with maritime legislation and support the transition to new fuels and technologies. Our solutions increase productivity, protect engines, and increase energy efficiency.

Aquametro Oil & Marine

Since 1928, Aquametro Oil & Marine has been among the leading manufacturers and suppliers of measurement, optimization and monitoring solutions for all kinds of fluids on ships and industrial applications.

ASA Safety Center

Vi på ASA Safety Center förbereder dig för eventuella nödsituationer iland och till havs. När det verkligen gäller, är kunskap livsviktig och många gånger avgörande. ASA Safety Center grundades 1999 för att säkerställa din trygghet i även de mest utmanande situationer. Vi utvecklar ständigt våra sjö- och brandutbildningar så att du ska få ta del av det senaste säkerhetsteknikerna i en trygg miljö under ledning av kunniga och erfarna instruktörer.

ASP Crew Management Services

We provide reliable & cost-effective crew solutions for most ship types and with a wide range of nationalities. We are an independent company, privately owned by the senior management, with a mission to bring value to the ships we crew and the projects we undertake.

At-Marine

AT-Marine Oy import and export ship technology, industrial and special electronic devices and systems. Our services: sales, engineering, installation, maintenance and maintenance agreements.

Berg Propulsion

Berg Propulsion is a Swedish company providing a range of propulsion technologies, electrical integration and energy efficiency optimization solutions for commercial and naval vessels. It designs and manufactures controllable-pitch and fixed pitch propellers, azimuth thrusters and transverse thrusters, as well as vessel control and manoeuvring systems. Berg Propulsion is recognized as an innovative company that positions itself in the technical forefront of a changing marine industry, by developing solutions that are designed for high quality, performance and reliability.

BLRT Repair Yards

BLRT REPAIR YARDS, which operates facilities in Estonia, Lithuania, and Finland, last year further consolidated its position as one of the leading providers of ship repair and retrofit services in the Baltic Sea region. Overall, the company, which has six repair docks, including the largest floating dock in the Baltics and one of the largest drydocks in Northern Europe, now handles over 270 vessels a year, a figure that is likely to rise still further with the arrival of a new 180m long floating dock in 2024. Our mission is to ensure the seaworthiness and performance of the world fleet through a wide range of ship repair services and

green solutions to assist with compliance with industry regulations and decarbonization targets.

Bore

Breezmarine Group

Breezmarine Group supplies ship equipment and spare parts for the marine industry. In addition we help improving your fleet's efficiency and provide next engineering solutions:

- Heating and cooling solution;
- Maintenance service (engines, propulsion, automation, etc).

Breezmarine Group is a pioneer in developing innovative marine engineering solutions for effective fuel consumption monitoring (FCM).

Business Turku

The most dynamic business and innovation cluster in Finland, and the best services for companies and entrepreneurs.

Carus

Carus is a global supplier of information technology to the travel and transport industry. We design, build and support systems critical to the operation and sales of ferry and cruise businesses around the world.

Our objective is to take care of the full 360 degrees of the passenger journey.

Climeon

COT-Clean Oil Technology

Danfoss

We are Danfoss Drives. Since introducing the world to AC drives back in 1968, we've continued to lead the charge when it comes to bringing variable speed control to electric motors. Drawing on decades of passion and experience within a wide range of industries so we can deliver drives that work with any motor or system.

DEIF / Blueflow

DEIF is a supplier of electrical systems and products. Our core competence is POWER MANAGEMENT and ENERGY MANAGEMENT systems. We offer solutions that makes the vessels operate safer, greener and more efficient.

Deltamarin

Deltamarin Group provides ship design, offshore engineering and construction support for the marine and offshore industries worldwide. The services include the full range of consulting, design and engineering as well as procurement, support for construction and installation. The Group employs around 400 experts in its own and associated companies located in Europe and Asia. Deltamarin is part of China Merchants Group, a Fortune Global 500 corporation.

DNV

Donsö Shipping Meet

DSM 2025 September 1-3, 2025. A meeting place for the maritime cluster on the island of Donsö. Let's meet!

DUWEL Group

DUWEL Group represents Thordon Bearings Inc environmentally friendly bearing solutions for propulsion, rudder and deck equipment. Partnering with DUWEL not only ensures excellent technical and environmental solutions but also something extraordinary that will exceed your expectations.

Echandia Marine

Echandia develops safe and efficient heavy-duty battery systems for maritime applications. Our solutions are designed to meet the highest quality and lifetime requirements, and to withstand the toughest demands and operational profiles. We have extensive experience in working together with the worlds largest shipyards, ship designers and system integrators, challenging the marine industry with safer electrification.

Eckerö Group

EE-Engineering

Founded in 2015, EE-Engineering Ab initially focused on . successful Ballast Water Treatment System (BWTS) projects for ship owners, emphasizing timelines and budgets. We've since expanded our services to include Turnkey Installations, Pipe Fabrication, Engineering Design, and Ship Retrofits, tailored to meet our clients' evolving needs.

Elomatic

Elomatic Oy is a Finnish consulting and engineering company with more than 50 years experience in the marine and offshore industry. In addition, the company provides demanding expert services to the process, machinery and pharmaceutical industries, among others. Elomatic focuses on continuous improvement, hybrid solutions, alternative fuels, and energy saving solutions. The privately owned company employs more than 1,100 professionals around the world.

Emelia

En ny skuta byggs på Åland, galeasen Emelia, som blir drygt 25 meter lång. Emelia byggs nästan mitt i Mariehamn, i Sjökvarteret, inför publik. Enligt planerna blir sjösättningen sommaren 2025. I samband med Tall Ships Race 2024 visar vi upp hur ett traditionellt galeasbygge går till här på Åland.

Endress+Hauser

instrumentation, services and solutions for industrial process

engineering. We provide process solutions or flow, level, pressure, analytics, temperature, recording and digital communications, optimizing processes in terms of economic efficiency, safety and environmental impact.

ESL Shipping

ESL Shipping is the leading carrier of dry bulk cargoes in the Baltic Sea region. The combined fleet of ESL-shipping and its Swedish subsidiary AtoB@C Shipping consists of around 40 vessels. ESL shipping has been in business more than 70 years and is a subsidiary of Finnish conglomerate Aspo Plc.

Etelä-Kymenlaakson ammattiopisto

We operate in the Eastern Gulf of Finland as the only Finnish maritime school at the second level of education.

EUSBSR PA Ship and PA Safe

The Policy Areas (PAs) Safe and Ship within the European Union Strategy for the Baltic Sea Region play an important role in advancing safety, security, and sustainability efforts in maritime operations across the Baltic Sea region. PA Ship and PA Safe implement these targets through collaborative activities and innovations.

ExaktAlign

The ExaktGroup is a community of cooperating technical specialists that excel in their field of operation.

Ferroman

Ferroman Engineering delivers integrated solutions, products and services to the Nordic industry. We ensure our clients production by supplying spare parts as well as developing products and solutions to help our clients to lower their climate impact.

Finlands Maskinbefälsförbund

Fackförbundet för maskinbefäl och elmästare.

Finnish Sea Service

We offer our customers a strong experience in specializing in offshore operations. Our innovative working methods and versatile equipment developed to meet the needs of our customers are always ready for the sea.

Finnish Seamen's Mission

Seamen's Mission is a 149 year old seafarers' welfare provider. We meet people in some Finnish and European ports, but also on board vessels.

Finnish Seamen's Service

The Finnish Seamen's Service (FSS) was founded in 1973. Our function is based on MLC 2006, ILO Convention No. 163 and Act 447/2007 of seafarer's welfare in Finland. FSS offers recreational services to seafarers. FSS provides library, film, wellbeing and information services within the Finnish merchant fleet and to foreign flag vessels

with a special service agreement.

Finnish Shipowners' Association

The Finnish Shipowners' Association has 23 member companies from different shipping sectors. The association has represented the needs of shipowners in industrial and labor market policies both nationally and internationally since 1917. The Finnish shipowners are in the forefront of technology and environmental innovations and are strongly part of developing solutions for sustainable shipping.

Finnish Ships Officers

The Finnish Ships Officers Union is an occupational union established in 1905.

Finnlines

Finnlines carry more in a smarter way. With more than 70 weekly freight and 80 passenger departures, we provide regular sea connections to all over Europe. The island-like location make Finland extremely dependent on regular maritime transportation. High-frequency liner traffic between Finland and Sweden, Continental Europe and Britain is the foundation of Finnlines' operations and the company is one of the largest in ensuring the Finnish security of supply. Finnlines carries more than carries more then a third of the one million rubber-tyred units that pass each year the three main sea bridges to Estonia, Sweden and Germany. Practically Finnlines connects Finland with Europe.

Fintraffic VTS

Fintraffic's Vessel Traffic Services provides vessel traffic services to merchant shipping and other marine traffic and maintains safety radio operations.

Flexens

Flexens is a project developer focused on decarbonising the maritime sector. Our competencies cover the production of green hydrogen, e-ammonia, e-methane, and e-methanol.

Foreship

With over 90 employees in 8 offices worldwide, Foreship specializes in concept design, consultancy, and project management for high-profile newbuildings. We have completed 1,500+ conversion projects, employing Naval Architects, Marine Engineers, and Sustainability Experts, collaborating closely with clients, shipyards, contractors, and marine equipment suppliers to bring customers ideas to life.

Furuno Finland

Furuno Finland is a pioneer in marine navigation systems, manufacturing and supply. We are experienced in bridge solution deliveries for all types of vessels.

Garant Safety

We are an international group of companies that offers

complete solutions for shipping, oil & gas, and coastal industries as well as wind energy power plants worldwide. For more than 30 years we have been providing full support to ensure your fleet and equipment is safe and operational.

With our mobile teams and distribution centers worldwide, we can reach any port and assist you with:

- expert overhaul & maintenance for diesel engines, mechanical machines, and industrial equipment
- timely inspections for lifesaving and fire-fighting equipment
- experienced divers, underwater works, and scientific research services
- safe mooring solutions & technical marine supplies
- custom-made production for metal structures and steel wire rope products.

Gard

Gasum

Godby Shipping

Godby Shipping is a privately owned shipping company established 1973. Our aim is to offer high class tailor made sea transportation for the forest industry and liner operators. We operate a modern and competitive fleet under Finnish and NIS flag.

In total, the company employs about 200 persons.

H+H Engineering & Service

H+H Engineering & Service is your expert for NOx reduction for all applications and your partner in SCR, catalyst and NOx treatment technology. We are a recognized world leader in retrofitting SCR systems onboard sea going vessels. Ensolvator is our collaborator for developing your project especially in the baltic sea region.

Hatteland Technology

Hatteland Technology is a global technology partner for system integrators within a wide range of industries. Our goal is to provide one-stop-shop technology solutions, tailored to our customers value chains.

Helkama Bica

Standing as the Marine sectors trusted choice for cabling, Helkama Bica designs and produces cables as a full service - from standard marine cables to customized product design, custom labelling and logistics service. Prioritizing service, Helkama is the one-stop-shop supplier for complete cable sets in all marine cabling projects.

Helsingin Hitsaus

Helsingin Hitsaus HH OY is a Finnish trustworthy company, operating in the marine sector since 2014. Our own production resources in couple with well-established international network

of partners allow us to be a strong reliable partner. Using our huge experience and knowledge in the marine industry we are proud to provide high-quality and affordable service focused on customer requirements. Our service range include: shipbuilding projects, voyage ship service and maintenance 24/7, ship repair and conversion, engineering and technical consulting, small tonnage shipbuilding. Based in Helsinki, we are working in key points of shipping activity in Nordic Countries, Baltic States, West Europe, as well as Bulgaria and Turkey.

HL-Marine

Vi är ett familjeföretag med kontor och produktionsanläggningar i Pargas. Företaget grundades 1984 för underhålls- och reparationstjänster till cement- och kalkindustrin. Under de senaste sju åren har företaget utökat sin expertis och sina tjänster och för närvarande kommer kunderna huvudsakligen från tre olika grupper: Industriellt underhåll, underhåll och ändringsarbeten på fartyg, konstruktion och tillverkning av stålkonstruktioner.

Håll Skärgården Ren

Håll Skärgården Ren rf är en riksomfattande miljöorganisation för alla som rör sig till sjöss, som sedan år 1969 arbetat för en renare skärgårds- och insjömiljö.

Högskolan på Åland

If Skadeförsäkring

If is part of the Nordic insurance group Sampo. We are the leading property and casualty insurer in the Nordic region, with great financial A-rated strength and insurance products for all your business needs.

Iris

Safety & quality management system, find out more and book a demo on at our web site.

KET Marine International

Since 1985 we supply high quality spares and services for GEA Westfalia & Alfa Laval separators. We tend to keep a stock of approximately 30.000 different genuine & OEM quality spare parts, complete separators and exchange pieces to make sure we can quote and ship out within 24 hours worldwide.

Kongsberg Digital Maritime Simulation

Kongsberg Digital Maritime Simulators offer sophisticated maritime simulators for education and training, featuring full-scale Bridge & Engine simulators to cloud-based simulator solutions.

Kongsberg Maritime

Kongsberg Maritime is a technology innovator providing

transformative solutions for sustainable marine operations. Delivering the Full Picture, its portfolio features state-of-the-art ship intelligence systems for autonomous and remote operations, integrated operational technology, energy and health management, deck handling solutions, electric and hybrid power and propulsion systems, and ship design services.

Langh Ship / Langh Tech

Lloyd's Register

LR assists the maritime sector to navigate energy transition in a safe, commercially viable and scalable way. As trusted advisers, we are here to help you find a balance between the risks and opportunities of the world's fast-changing ocean economy. As part of our own commitments, we will contribute to an Ocean Economy supported by zero-carbon fuels and net-zero infrastructure, compatible with globally accepted climate science. Reaching this goal requires an ongoing commitment to decarbonisation, which is why LR is focused on optimising the processes needed to get there. We help all stakeholders across the maritime value chain transition with the most appropriate steps for them – always safely and in an economically sustainable way.

LokalTapiola

LocalTapiola is a customer-owned mutual group of companies. Serving private, farm, entrepreneur, corporate and institutional customers, our main mission is to help our owner-customers protect their life and business. We insure our customers' property, health and business against risks. What's more, we provide solutions for asset management, saving, financing and life assurance, as well as real estate investment and management services.

Länsirannikon Koulutus

MAN Energy Solutions

MAN Energy Solutions is a provider of large-bore diesel and gas engines and turbomachinery. Our portfolio includes two-stroke and four-stroke engines for marine and stationary applications, turbochargers and propellers, as well as gas and steam turbines, compressors and chemical reactors.

Marinfloc

For a quarter of a century, Marinfloc has been at the forefront of wastewater treatment solutions for vessels and offshore platforms. Our flocculation technology tackles the tough stuff – bilgewater, EGR bleed-off, drill slop, and black and grey water, and even oily sludge. We've been at this for over 28 years, ensuring that our customers can do their part in preserving our

seas. Because when it comes to clean water, we don't just meet standards; we set them.

Maskinhall2

M2 Valves supply valves for marine and industrial applications. Our valves are produced by people we trust and who put a pride in their quality. Our warehouse/ workshop is located in the marine cluster on Öckerö in the archipelago of Gothenburg.

Mercy Ships Sverige

Mercy Ships operates hospital ships that deliver free surgeries and other healthcare services to those with little access to safe medical care. An international faith-based organization, Mercy Ships has focused entirely on partnering with African nations for the past three decades. Working with in-country partners, Mercy Ships also provides additional training to local healthcare professionals and supports the construction of in-country medical infrastructure to leave a lasting impact.

Each year, more than 3,000 volunteer professionals from over 60 countries serve on board the world's two largest non-governmental hospital ships, the Africa Mercy® and the Global Mercy™. Professionals such as surgeons, dentists, nurses, health trainers, cooks, and engineers dedicate their time and skills to accelerate access to safe surgical, obstetric and anesthetic care. Mercy Ships was founded in 1978 and has offices in 16 countries as well as an Africa Service Center in Dakar, Senegal.

Meriaura

Meriaura is a Finnish shipping company based in Turku. industrial bulk, recycled and raw materials and demanding project cargoes, in Northern Europe. Our vision is to be the leading forerunner in environmentally friendly, innovative and solution-oriented maritime transport and ship management services.

Meriturva

Meriturva Maritime Safety Training Centre aims at improving safety at sea by offering a vast selection of fire and survival training both for professional and amateur seafarers.

Meriturva consists of two units, fire training unit in Upinniemi Kirkkonummi and survival training unit in Lohja.

Millog

Millog provides intelligent and sustainable life-cycle management solutions as well as a comprehensive range of logistics services to meet customers changing needs. Our nationwide network of service providers guarantees timeliness and reliability across the whole of Finland. Our key customer sectors are defence and government services, industry, infrastructure and transport.

Millog Marine & Power

Millog Marine & Power is a one-stop-shop for all your marine technology servicing and maintenance needs. We provide docking, conversion projects and field maintenance on time and within budget. Our long experience guarantees, that with preventive maintenance, your vessels are in operation longer and you can rest easy.

nauticAi

nauticAi is a Finnish maritime digitalisation specialist with strong focus on ship performance, IoT and data capture, state of the art electronic logbooks and customised operational solutions at a price you can afford! And our customer service is simply superb!

Nordic Marine Solutions

Nordic Marine Solutions has operated as a market leader since 1937 in the fields of independent inspection, surveying and technical consultancy towards the maritime industry in Norway and abroad. Our core activity was from the start centred around inspection and cargo supervision in connection with export and import shipments of grains, oilseed and feedstuff to silos and producers in Norway. Services toward the Agri segment, fish farming and aquaculture is still a major part of our activity, but within the last two decades we have expanded significantly, and our services and expertise now encompass a wide range of areas within the technical marine, shipping, loss prevention and insurance industries.

Northcom

OM-Finland

OSK Design

Where creativity and innovation result in the highest standards of maritime design.

At OSK Design, we offer a unique combination of commercial and technical expertise. We take pride in knowing your business model so we can offer tailored maritime solutions to your specific needs.

PBI Research Institute

PBI is a research-based management consulting company providing strategic business development and experience management services mainly to industrial clients within the maritime, transport, and energy segments. We offer our clients a profound understanding of their industry and business ecosystems supported by top-level academic research collaboration.

We have built up both a strong market understanding and reference through over 20 years of research and long-term collaboration with our industrial clients.

Prima Shipping

Promarine

Promarine is privately owned Finnish company dedicated in improving communication system performance in maritime market. We have innovative, high performance communication and antenna products and solutions for internet on board, 3G, 4G, 5G, LTE, WiFi, VHF, TETRA, MF/HF, GNSS and interference protection (combiners, splitters and galvanic isolators). We offer proven solutions, trusted by a wide range of naval authorities and marine professionals worldwide. Get connected!

RABN

RINA

ROG Ship Repair

Fully equipped with a professional team and specialized colleagues who have a degree in ship building and mechanical engineering, ROG is your reliable partner for any ship repairs or overhaul. Whether your vessel is damaged after collision, water ingress or fires: our crew is flexible, fast and always on call for repairs, no matter your location. ROG is available for yard repair, voyage repair and port repair. We are only a call away!

Roodhart Marine Rotterdam

We are an unique company. We have been located in Rotterdam from the start, with customers throughout Europe and far beyond. Specialized in a specific branch of sport: pump systems, separators, electrical motors and mechanical seals for industry and marine.

Safetygruppen

Schottel

SCHOTTEL develops and manufactures azimuth propulsion and manoeuvring systems, complete propulsion systems and steering systems for vessel. Worldwide sales and service network.

Septor

Your one stop shop for engine room equipment, filters, spare parts, paints & coatings. Filters that replace separators!

Shippax

For over 55 years our idea has been to provide information about the ferry, cruise, ro-ro and high-speed market. We are the world's only source for globally collected ferry traffic statistics, which we publish in the monthly Shippax Info magazine and the annual Shippax Guide, Design and Market publications. The Shippax Database contain information on all

vessels within our criteria around the world. On our website you will find important news about the industry, which are later also published in a weekly newsletter.

Since 2003, Shippax have been organizing an annual onboard ferry conference. Today known as the Shippax Ferry Conference, it is typically attended by some 450-500 delegates from all over the world.

Shipson

SHIPSON OÜ is a Estonian Private owned Company and was established in 2017 by maritime specialists with extensive experience in this field of activities.

SHIPSON OÜ has 3 main business areas:

FIRE-FIGHTING AND LIFE-SAVING EQUIPMENT

GLOBAL SHIPS REPAIR

TECHNICAL SUPPLIES

SHIPSON OÜ has 2 subsidiaries Shipson OY in Finland and

Shipson AS in Norway , which has been established in 2023.

SHIPSON OÜ offer to the Companies always best solution with competitive pricing and high quality standards.

Sjöblom Marine Engineering

Sjöblom Marine Engineering Ab is a 2019 established maritime and industrial service providing company. We offer both blue-collar professionals as well as white-collar experts for your everyday needs. Our lead words are flexibility and quality which we can provide with years of experience for Shipowners, Shipyards, Suppliers/manufacturers in maritime industry, onshore Industries and Ports. We provide our services worldwide. Please don't hesitate to contact us regarding any inquires or questions you might have!

Sjöfartens PraktikKvarn

Sjöfartstidningen

Sjöfartstidningen startade redan 1905, och är den ledande branschtidningen för dig som jobbar med sjöfart.

Sjöfartstidningen är helägt av Föreningen Svensk Sjöfart.

Sjömanspensionskassan

Sjömanspensionskassan - Seafarers' Pension Fund (MEK) is an authorised pension provider that handles statutory earnings-related pension provision for seafarers in Finland. Our functions are prescribed in the Seafarer's Pensions Act (MEL). Seafarers' Pension Fund is founded 1956. It is the oldest pension provider at the private sector.

Sjömans-Unionen / Merimies-Unioni

Smartpipe

SmartPipe is a Finnish cleantech company providing cost-effective and ecological solutions for biological wastewater

treatment systems. The goal is to anticipate and prevent problems arising from waste hazards responsibly. Our technology plays a crucial role across various segments within the maritime industry.

Soya IT Marine Solutions

Supplier of vessel IT services with a big focus on cybersecurity.

Stockholms Reparationsvarv

Sveadiesel

Sveadiesel supply energy recovery systems, fuel filtration systems and ultrasonic tools for measuring water tightness, flow of liquids, levels of fire extinguishing agents. Our goal to provide a fast and personal service to designers as well as shipyards and end customers. Our brands are Coltraco Ultrasonic, Orcan Energy and Separ.

Svenska Skeppshypotek

Svenska Skeppshypotek acts as an adviser, a discussion partner and a potential lender for investments in vessels. Our operation is governed by a Swedish law, the Act on Svenska Skeppshypotekskassan. We fulfil our purpose by financing the renewal of the merchant fleet, mainly for Swedish shipping companies, but also for foreign shipping companies with a significant Swedish influence or interest.

Synkronex

We are a flexible and reliable partner that can solve demanding tasks sometimes in very short delivery time. Scrubbers, BWMS, Pipework, Ultrasonic Anti-fouling systems, Interior refits and repairs, etc. solutions can be supplied by Synkronex. Turn-key, sub-contracted, or on an hourly basis.

Taiga

Rätt klädd. För varje uppdrag. I tropisk hetta, arktisk kyla eller forsande regn. Under militära operationer, polisuppdrag eller ambulansutryckningar. Taiga utvecklar hållbara och funktionella arbetskläder för världens mest krävande yrken och miljöer. I 40 år har vi hjälpt dig som behöver det som mest att komma rätt klädd och rätt förberedd. Till varje uppdrag.

Tall Ships Races Mariehamn

Tallink Silja

Teknoma

C.C.JENSEN A/S, represented in Finland by Teknoma Oy, designs and manufactures CJC® Offline Oil Filtration Systems for removal of particles, water, acidity and oil degradation products from oil and fluids. Preventive oil maintenance is an

important factor to ensure clean & dry oil, increasing oil and component lifetime and reducing risk of costly system breakdowns.

Teknoma Oy imports and manufactures technical products for the Finnish industry and retailers. Teknoma provides high quality products and gives added value with solid expertise of Teknoma team. With our customer driven way of working we actively try to find more sustainable solutions and improve customers' processes.

Telemar

Telemar Oy Ab is part of Marlink Group. We are maritime service company and experts in maritime communications/digital solutions. Our office is located at Helsinki.

Traficom

The Finnish Transport and Communications Agency Traficom works to ensure the availability of well-functioning, safe, secure and reasonably priced transport and communications connections and services in Finland. Traficom is also an authority serving people and businesses in licence, registration and supervisory matters.

Trident BMC

Turbo Service International

TSI have been serving all makes of marine turbochargers for more than 35 years, via our network of workshops globally. With our expansion into the Baltic, we now have workshop in Tallinn to support our growing client base in the region.

Turku School of Economics

University of Turku has selected sea and maritime related studies as university-wide Strategic research and education profile theme. Turku School of Economics has a strong reputation in maritime research. Maritime@TSE is platform for maritime sector research and innovation activities in the Turku School of Economics (TSE).

Turku University of Applied Sciences

Turku University of Applied Sciences Faculty of Engineering and Business is a significant centre of technological and business competence. Our research groups are strongly integrated with education and represent expertise from engineering to environmental issues with focus on current topics, such as marine industry, digitalization, engines and powertrain, new sustainable fuels, and autonomous systems.

Turun Messukeskus

Navigate is an international B2B trade exhibition for maritime, shipping and shipbuilding professionals, organised every other year at the Turku Fair Center, Turku, Finland.

Unisea

UniSea is a maritime software and consultancy house with dedicated shipping and offshore focus. We deliver market leading HSEQ and operation support software to more than 100 customers world wide.

Valmet Automation**Van Ameyde Marine**

Van Ameyde Marine is the leading global marine surveying network with a growing number of in-house specialists. We offer our clients global representation with independent and objective consultancy and surveying services on 24/7 basis.

Krogius is one of the oldest companies in the transportation field in Finland. Captain Lars Krogius established the company in Helsinki in the 1872. Since the year 2020 the company has been known by the name Van Ameyde Krogius after the development of the Van Ameyde Marine network.

Van Ameyde Krogius is providing services in all major ports in the Baltic Sea region. We are acting on behalf of insurers, brokers, freight forwarders, shippers and the marine industry at large. Our surveyors are mariners, engineers, scientists and most of all: industry experts. Additional commercial and legal expertise is provided by our dedicated teams of claims handlers in the Nordic and Baltic countries.

Vibratec Akustikprodukter

International supplier of technical solutions within noise, vibration and shock isolation.
